Cristel Woelfel
Senior Tenement Consultant
Australian Mining & Exploration Title Services Pty Ltd
PO Box 2495
PARAP NT 0804

Dear Cristel

I am happy to be able provide feedback on the service that AMET's provide to Auvex Resources Limited.

As a geologist who has worked in the exploration and mining industry for the past 24 years it is a pleasure when you come across such professional organisations as AMETS. I am consistently reminded of the experience, knowledge and discretion that AMETS and its staff bring to the management of our tenements.

We have relied heavily on their understanding of the *Mining Act*, the decision making process and their contacts within the Department to assist us with optimising our exploration effort. Any organisation is a manifestation of its staff and AMETS are very fortunate to have such a diverse, dedicated and friendly group of industry experienced professionals.

I would commend AMETS to any organisation that is serious about the management of one of its most valuable assets, its tenements.

Yours sincerely

Ian Shackleton
Exploration Manager
